**Subject:** [Filter Test: C13] RE: Docket No. E-00000J-10-0044

Dear Commissioner Pierce:

Thank you for allowing interested parties the opportunity to provide input so that the Commission may have a fully informed and productive discussion during the workshops on line extension policies for electric utilities. The Alliance of Construction Trades, a 25 year non-profit construction trades association with over 300 subcontractors and material suppliers in Southern Arizona, has followed the issue and reviewed the Notice of Inquiry. As the leading voice of subcontractors, we have a vested interest in the outcome of the workshops. The current policies have an adverse impact on the residential construction industry and could delay our state's economic recovery. We encourage the Commission to allow individual utilities, like TEP, to work with impacted parties like ACT and SAHBA to find policy changes that work for businesses, the utility and rate payers.

I would like to be kept informed as this issue proceeds and have the opportunity to participate in the workshops and other discussion topics. If you have any questions, I can be reached at 520-624-3002.

Sincerely,

*James J. Kuliesh*
